

The process of transferring qualitative data into a “flat” database

Adriana Briseño
University of British Columbia

Coding Manual

- Thinking through time
- Coding decisions
- Code conventions/classifications
- Code lists
- Specific instructions for researchers
- Work in progress

Tx: Activity word puzzle answer, newspaper	
Tx: Activity word puzzle answer, piece(s) of paper	
Tx: Activity word puzzle answer, unknown	
Tx: Activity word puzzle answer, white-board	
Tx: Activity word puzzle, blackboard	
Tx: Activity word puzzle, board	
Tx: Activity word puzzle, magazine	
Tx: Activity word puzzle, newspaper	
Tx: Activity word puzzle, unknown	
Tx: Admission ticket text, ticket	
Tx: Advertisement, billboard	
Tx: Advertisement, bus stop	
Tx: Advertisement, employment webpage, computer	
Tx: Advertisement, flyer	

Coding in Atlas.ti

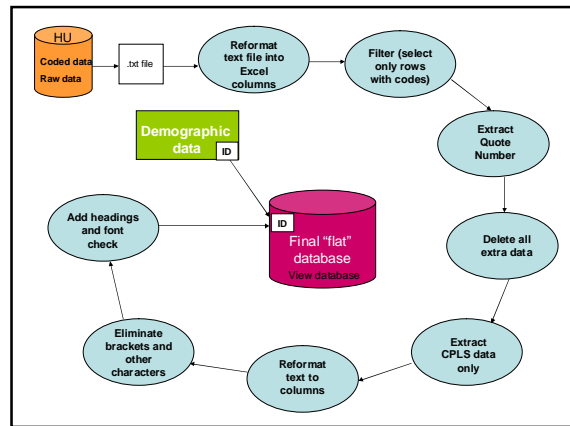

- Qualitative data analysis software
- Coding, search, retrieval, database management, data linking, network display, theory building
- Codes include:
 - Codes related to specific research questions
 - CPLS coding system

View Atlas.ti

Excel script (macro)

- Complex record of series of simple instructions
- Numerous instructions can be executed repeated times with only one command
- Visual Basic editor
